

SAINT JOHN'S

25th March 2019

Dear Parents/Carers

Parent Survey - March 2019

Thank you to those of you who responded to our parent survey. Please see the attachment which provides an analysis of the results. We had 60 responses in total which is a considerable increase from our previous parent survey in 2016.

We are delighted to find that the responses are overwhelmingly positive. A small number of parents have reported that they have concerns. Please be assured that these concerns will be taken seriously. It is absolutely vital that issues are dealt with swiftly in order for all pupils to flourish at Saint John's. I would urge you to book an appointment with me to discuss your concerns more fully and ways to resolve them.

I would encourage parents to join the anti-bullying steering group, in order to support us in our aim to ensure that no child at Saint John's experiences bullying of any kind. Please see the School Office for details of this.

If you believe you do not receive information from the school about your child's progress, please make an appointment to see me so that we can discuss other ways of communicating. This is really important.

Thank you very much again to those of you who completed the survey to help us provide the very best for your children.

Kind regards

Juliette Moxham
