There are many aspects of school premises that require safe management and maintenance such as asbestos, fire safety and statutory testing. For an overview of the legislation and compliance requirements, please see the Compliance Monitoring for Council Buildings report available from the Federation of Property Societies' website. This sets out the responsibilities for employers and duty holders.

DfE provides additional non-statutory advice on asbestos management in schools (available from GOV.UK).

For maintained schools, both local authorities and schools have responsibilities for the repair and maintenance of premises.

Approval: Governing body has delegated to the Resources committee for approval.
